

Fun and Fundraising with Christmas jumpers at work

WayMakers

When your **fun** also **fundraises**, that's literally **double the fun!**

Scan the QR code to make a donation.

All contributions will support our AFAB Group, a peer support and social group for neurodivergent teenage girls and those assigned a female gender at birth. This group offers a safe space for neuro-affirming support, fun and friendship.

"The AFAB Group has been the main positive factor in my mental health recovery. It has improved my confidence and social skills, and my self image has been positively transformed. This is my only source of friendship."

Teen group member, November 2024

"I love being coming to these sessions: it is a safe space and the best part of my week. It is the only time I am able to socialise with people my own age."

Teen group member, November 2024

Running for nearly three years, this popular and successful group is dependent on funding to exist. Every donation enables us to continue offering weekly sessions.

"I love being in a space where people understand me and my autism. I love talking to everyone even though it's difficult." Teen group member, Nov 2024

What is WayMakers?

We are a neurodivergent-led social enterprise committed to building neuroinclusion in workplaces, communities and individual lives. We are award-winning providers of tailored support for employers, service providers, and autistic and ADHD people. Our goal is for beneficiaries to develop the tools, insights and confidence they need to grow and succeed.

"This group has had lots of positive impacts on me: I've made more friends, I socialise more, I feel less stressed and my confidence has improved." Nov 2024

WayMakers' vision is of a society which appreciates and champions the value of diverse minds so that all people feel welcome, valued and able to thrive.
